# What Is Yours, Is Mine!

## Breaking the Disjointed Communications Barriers

Missed information and lost data is hampering effective law enforcement and today holding close general information is restricting the basis of policing. Of course, there are certain times when investigating or setting up certain intelligence is held back; general information must be available to all.

**Perceptive Intelligence** goes beyond just data sharing across borders, agencies and global lines in the sand. Logical communication certainly dates back to Sir Robert Peel (1829) and his Nine Peelian Principles. Technology improves his whistle and rattle that were used to garner attention. Why has there been such a resistance to necessary change?

Created some five years ago by former law enforcement officers, **LENSS (Law Enforcement Network Sharing Solution) Platform** is more than just for use by law enforcement; it is the for use in the full spectrum of Public Safety in every single way. The corporate world also is included to enable far better understanding regarding security within our places that the public enter and have access to.

- Community Policing**
- DUI Checkpoints**
- Gang Investigations**
- Loss Prevention**
- Pedophile Groups**
- CCTV Reports**

**LENSS**  
Law Enforcement Network Sharing Solution

**LENSS** is so articulate in resolving all forms of connected communications and importantly being able to have the ability to query the information that has been inputted by so many others who have gone before to enable proactive crime solving.

**LENSS** works across the board, no matter what part of public safety. It is the proprietary/patented ability to securely share information, which uses your current databases plus all current thread information.

All information gathered through any of those situations is totally shareable instantaneously with those who have a connection across borders and agencies via email and SMS text. Bringing them directly into the capability to solve right there and then.

<p><b>Law Enforcement</b>  <b>Drug Task Forces</b>  <b>Probation Officers</b>  <b>School Resource Officers</b></p>	<p><b>Emergency Management</b>  <b>Fire Departments</b>  <b>Building Code Departments</b>  <b>Electronic Warrants</b></p>	<p><b>Education Facilities</b>  <b>Event/Sports Centers</b>  <b>Prison Services</b>  <b>License Plate Recognition</b></p>
--	---	---

For example, as the report or citation is written and completed with all checkboxes marked, the officer makes simple notes with the expansion of relevant information on the stop or citation issuance. This is likened to an **Electronic Index Card of Perpetual Information**. Should this match other information already in the system, all other individuals will be alerted via email and or SMS text. This information has now instantaneously been sent to all others that are now alerted. It can include back-up or a specialist unit response. All instantaneously, in under thirty seconds, all are informed.

In the event of an officer being sent for a call for service, for a loud noise complaint, he or she can enter the address of the location and know what other concerns or calls have occurred with individuals residing there. This is expanding officer safety with up-to-date information via **LENSS**.

No matter whether you are an Emergency Management operation, have School Resource Officers or a large complex such as a hospital or casino, information, real-time information is available and is key. That is what **LENSS** accomplishes and solves. This is a just pure taster for all **LENSS** achieves. To understand the full menu, please, contact us and let us converse, share and understand this revolution in communications.

## **LENSS** is the Proven Communication Change...
