

LENS S Currency Counter, Denomination & Serial Number Data Recorder Network Sharing Solution

Wearing too many hats in law enforcement today requires change and especially in narcotics and currency trafficking operations. Stopping the flow of drugs and currency is an art form, which takes time and patience, which in today's policing world is sparse.

The seizure of funds as they travel the highways and byways starts the process of exactly what do you have?

Counting the seizure or 'Drug Buy' amount is all about preparing the evidence, which takes you off the streets and behind a desk for far too long.

Now, there is a proven network sharing solution, that effectively eradicates this time-consuming routine. The **LENS S Currency Counter, Denomination & Serial Number Data Recorder Network Sharing Solution** is the latest proven technology, and most accurate money counter available that not only reads varying currencies, it prints and logs the denominations and records the serial numbers, which in minutes are available on the **LENS S database** with administrative access for even patrol officers on the street for comparison.

Significantly reducing and productively saving the amount of time it takes to document 'Drug Buys' and seized money by counting mixed cash, capturing and recording every bill serial number in a single pass. Absolutely no more wasted hours at a copying machine, or photographing with your Smartphone.

Saving even more hours finding the serial numbers of the buy money by looking through previous photocopied reams of paper! Now it is completed in a couple of minutes, taking you back on the streets to find more currency trafficking mules.

[Contact us today](#) to learn more about how the **LENSS Currency Counter, Denomination & Serial Number Data Recorder Network Sharing Solution Currency Counter** will improve your agency's operations immediately!

Although the **High-Intensity Drug Trafficking Area (HIDTA)** concerns have increased, the root of the problem is wheeling its way across the corridors of the USA and is global. Whilst we continue to chase the users and dealers who ply their illicit trade, the cash flows back to the manufacturers, growers and the cartels who profit to the extreme.

Every *State Public Safety Department* within their *Fusion Center* with its *Narcotics division* can now expand the network of officers, to literally every officer via any device to connect through **LENSS** and your State's database.

Seized, confiscated or suspect currency can now be recorded in mere seconds, allowing for all officers to have this information instantaneously, with ease to query the monies or currency at a traffic stop or a planned raid where known monies will be.

LENSS Currency Tracking machines are housed within various agencies/departments for ease of scanning seized or checking currency and logging for all to have access securely and query.

Our **LENSS Currency Tracking & Network Sharing Solution Pilot Program** is concise, simple and importantly effective. Our up to 90-day pilot fifty state opportunity includes **LENSS Currency Tracking machines**, the number to be determined at locations which have the most effective collection of seized or acquired funds. Officers will be coached and trained in the usage of inputting the recorded currency into **LENSS**, which is easy to understand with the step by step operation.
